The Company has its client-focused presence in Pune, Hyderabad, Kolkata,

Artech History:

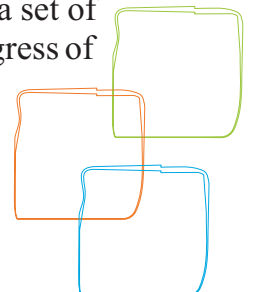

Artech India, established in 1980 as Softek Pvt Ltd to develop and market high suitability products, is a fast growing application development provider for Indian and International customers. In our quest to become a global leader, Artech India joined hands with Artech Information Systems, LLC, USA, in 2002. With the combined mission to provide exceptional information technology professional staffing and project management services for time-sensitive and mission critical applications, the conglomeration of Artech India and its parent organization, Artech USA, aims to provide the best of quality standards to its customers. Founded in 1992, Artech USA made its mark as a consulting organization providing staff augmentation services. The Company rapidly evolved in the direction of project management support, both for onsite and offsite requirements.

Artech Expertise:

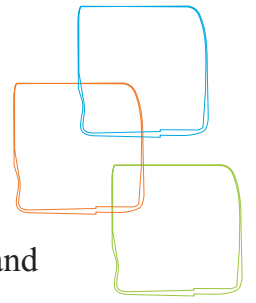

Artech has standard expertise in the following areas:

IT Consulting & Staff Augmentation: Artech India specializes in the provision of high-end, skilled staff (with a mélange of degrees, certifications, experience and expertise) to supplement client resources in a variety of technical areas. Our onsite Artech'ites assist at the client site to further client goals in a time and cost-effective manner. Artech India's resourcing and placement system (WebPAS) enables the resourcing team to recruit the best of candidates in the most efficient manner using the latest technology to provide solutions at the client site.

Project Management: Over the last 25 years, Artech India has completed various projects successfully. Our project planning includes a group of activities or tasks to be successfully delivered within a set of deadlines. Artech emphasizes on adequate scheduling, sharp supervision and sustaining progress of the project performance. We build up the mechanism of the project plan activities, the valuation approach, the deadlines, and the accurate execution of these plans.

Artech India's project services coordinate a series of projects under a solo portfolio, comprised of important data, which covers project objectives, expenditure, timelines, activities, resources and other minor but significant aspects. This helps in guiding the project management in an efficient manner by exploiting resources appropriately, accurate testing and delivering the goods in a set time period.

Product Engineering: Artech India is a premier market player while designing products for the Indian as well as global markets. With an effective product system in place, Artech India introduces sufficient flexibility in the product design to take care of all possible eventualities. Development is then structured around the product design, coupled with repeated testing to ensure reliability and state-of-the-art output. Artech harnesses its expertise and quarter-century experience to understand the business nature (as well as model excellence and support); and provide both effective business services and product development.

A high-tech designing structure of products, their development, modification, testing, and renovation exhibit Artech India's comprehensive product engineering capabilities. At Artech, we have pooled the multi-layered product engineering expertise of committed excellence and a competitive environment to provide Standard Product Engineering Services (SPES) around the world.

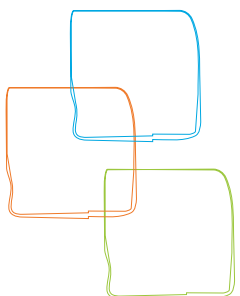

RPO Services: Artech's Recruitment Process Outsourcing services caters to the global recruitment markets including Staffing, Recruitment Process Outsourcing, HR Outsourcing, Online Assessments. We take care of your recruitments so that you can concentrate on your core areas. Artech has utilized its own RPO services successfully since 2003 enabling annual growth at an average rate of 40%. Artech currently provides RPO services to Fortune 500 companies. Artech ranks high in areas such as RPO task proficiency, impressive infrastructure, higher standards of work ethics and an ambition to satisfy the clients. We never lag behind in meeting project deadlines and providing quality services that help our client organizations grow faster.
